Social Collaboration
mechanism for
digitalization
of work

„With bloola.intra we **increased our internal efficiency up to 25%** because of the use of Social Intranet & Collaboration.“

Do you agree?

- You want to keep your employees up to date and something is always getting lost?
- You create process descriptions and work instructions and employees won't follow by excusing with "we did not know where the last version is"?
- You do work twice because employees did not notice that others have solved current challenges?
- Employees do not know the company's structure

THE SOLUTION

For all of these challenges, we have created an intelligent solution that covers:

- Easy distribution and sharing information
- Making knowledge available
- Living and evolving processes continuously
- Building an employee address book and network
- Reflecting the company magazine and intranet

15 users starting already at 99.- € per month (webbrowser, tablet and smartphone)

Are you ready for less clicks, more time for valuable things and **your individual Intranet?**
